

STRYTEN ENERGY

M-SERIES

F100 >>>

Stryten Energy F100 is the economical conventional charge battery you've come to depend on for your light-to-medium duty applications. In our effort to produce the best battery possible, we have made several improvements, including a careful optimization of the paste density, in order to extend the life of the battery. Stryten Energy has built this battery to deliver the best possible value to the customers who rely on us to get the job done. Available in a range of popular sizes — we're sure to have a Stryten Energy F100 to fit your needs.

THE ENERGY TO CHALLENGE

M-SERIES | F100 | FLAT-PLATE MOTIVE POWER BATTERIES

VALUE-FOCUSED FLAT-PLATE

- 1500 cycle / 3+2 year warranty
- Increased antimony in the positive grid alloy reduces corrosion and extends cycle life
- Inset grid-lugs for improved conductivity
- Optimized specific gravity for longer life
- Tray paint is powder coated for durability
- Improved paste density for reduced shedding and long-lasting battery life
- Wavy S-Rib separator design for extreme vibration resistance and electrical short protection

The Energy to Challenge

Stryten Energy helps solve the world’s most pressing energy challenges with a broad range of energy storage solutions and components across the Essential Power, Motive Power, Transportation, Military and Government sectors. Headquartered in Alpharetta, Georgia, we partner with some of the world’s most recognized companies to meet the growing demand for reliable and sustainable energy storage capacity. Stryten powers everything from submarines to subcompacts, microgrids, warehouses, distribution centers, cars, trains and trucks. Our stored energy technologies include advanced lead, lithium and vanadium redox flow batteries, intelligent chargers and energy performance management software that keep people on the move and supply chains running.
