

STRYTEN ENERGY

M-SERIES

T300 >>>

Stryten Energy Tubular T300 batteries deliver premium cost-efficient power, and are more durable and dependable than traditional flat-plate designs. T300 batteries are the right choice for every day, conventional use and are ideal for opportunity charging operations. Featuring Stryten Energy's round tubular technology, which provides longer run times than competitive square tube designs, T300 batteries can achieve up to 1800 cycles at 80% depth-of-discharge (DOD).

THE ENERGY TO CHALLENGE

CONVENTIONAL MAINTENANCE TUBULAR

- Engineered for premium heavy-duty performance
- Enhanced grid design for increased energy efficiency
- Increased positive spine diameter for longer life and greater efficiency
- Improved separator technology for added vibration protection
- Superior gauntlet design ensures plate and active material integrity
- Approved for opportunity and fast charging applications

The Energy to Challenge

Stryten Energy helps solve the world’s most pressing energy challenges with a broad range of energy storage solutions and components across the Essential Power, Motive Power, Transportation, Military and Government sectors. Headquartered in Alpharetta, Georgia, we partner with some of the world’s most recognized companies to meet the growing demand for reliable and sustainable energy storage capacity. Stryten powers everything from submarines to subcompacts, microgrids, warehouses, distribution centers, cars, trains and trucks. Our stored energy technologies include advanced lead, lithium and vanadium redox flow batteries, intelligent chargers and energy performance management software that keep people on the move and supply chains running.
